The County will release cycles under this contract once every eighteen (18) work days between April and October and once every twenty-four (24) work days between November and March as needed. **The Contractor shall submit a work plan including schedule and route prior to beginning any work under this contract. The work plan shall contain specific details on work to be performed including a schedule per work week, route to be followed, and locations of work each day.**

The Contractor shall determine their schedule and route based on available resources (personnel and equipment). The Contractor shall also take into consideration release of work and differences in growing seasons (summer/winter) to develop the work schedule. The County's Representative reserves the right to adjust the maintenance frequency during the slow growing season by delaying the release of the cycles.

Time extensions or weather delays only apply to those days authorized by the County's Representative during specific cycles. Once a cycle is completed and accepted, the ideal maintenance schedule must be followed. Procedures for time extension requests due to weather conditions must be followed for each new cycle. The County's Representative will make the final determination regarding time extensions.

The following illustrations of ideal maintenance and maximum allowable (with authorized delays, as specified) schedules for this contract are provided for guidance:

The Contractor shall consult with the County's Representative prior to any schedule variance. The Contractor shall immediately contact the County's Representative when circumstances beyond their control that could alter the schedule or route for the cycle arise. (noon), the County will consider allowing an additional one-half (1/2) day be added to the performance period, otherwise no adjustment will be made to the performance period. The Contractor shall make an immediate written application for this (during event) via email; the County's Representative will determine and authorize such award. The County will verify alleged conditions in the area prior to authorization. Once approved, the County will modify the completion date, accordingly, for the cycle and will notify the Contractor.

If the Contractor is required to remove his/her operation as a result of inclement weather after 12:00 P.M (noon) for an excessive number of days the County will consider allowing additional time to the performance period. The Contractor shall document in writing via email to the County's Representative any inclement weather after 12:00 PM (noon) affecting their

maintenance operations. The Contractor shall also include pictures and other pertinent documentation for review and consideration. The County's Representative will determine and authorize such award based on Contractor's written notifications and supporting documentation submitted for this. The County will notify the Contractor on final decision and will modify the completion date, accordingly, for the cycle.

13. **DAILY REPORTS** - The County's Representative will be entitled at all times to be advised, at their request, as to the status and details of work being completed by the Contractor in the format they require. Edging of asphalt paved roadway edges that do not have curb will be performed on an as-needed basis, as ordered by the County's Representative for specific roadways, and will be paid under the corresponding pay item.
16. The Contractor shall provide competent, suitable, and qualified personnel to perform the work as required by the specifications. The Contractor shall, at all times, maintain good discipline and order at the work site. The Contractor will provide a list of all foremen and supervisors who will perform the work. The plan shall contain detailed information on personnel, equipment, and schedules for each contract. The Contractor shall have resources (i.e. equipment and personnel) for each contract.

TECHNICAL PROVISIONS

The Contractor will furnish all labor, materials, equipment, supervision, tools, transportation, supplies, manpower and pay disposal fees, to complete the work specified in this contract. As stated, the work performed will consist of mowing (roadside and slope/ditch mowing, litter and grass clipping removal, edging, herbicide treatment, brush control), fertilization of turf and additional litter removal.

1. **QUANTITY AND FREQUENCY OF WORK** – The work specified in this contract represents the type of services to be accomplished. The areas and limits of work are all non-paved sections of right-of-way and County property. Areas have been inventoried and calculated as to quantities. Any discrepancies or disagreements concerning quantities and limits of work shall be immediately reported in writing (shall reflect the new measurements taken by the Contractor and the contract measurements) to the County’s Representative. Discrepancies or disagreements will be mutually resolved prior to beginning work in any area in question. The County will make the final determination on any unresolved matters.

During the first cycle of all bid items, the Contractor will be responsible for bringing all areas specified in the contract up to a maintainable standard. No additional compensation will be given to the Contractor for bringing the specified areas up to a maintainable level. All work locations will be considered provided by the County in an “as is” condition.

The County’s Representative will determine and authorize when to begin each cycle. The Contractor’s authorization to proceed with service delivery shall only commence after he/she receives a delivery order identifying the specific services to perform and the costs involved. The Contractor shall not begin any cycle until authorized by the County’s Representative. The Contractor shall complete each cycle within eighteen (18) work days between April and October and within twenty-four (24) work days between November and

March. The total number and timing of the cycles will depend upon the line item and growth conditions during the season. The Contractor will be compensated at the unit price multiplied by the actual number of cycles completed unless otherwise specified.

This contract includes a maximum of sixteen (16) mowing cycles, as needed. It also includes a maximum of one (1) cycle of fertilization of turf, and six (6) cycles of additional litter removal to be accomplished on an annual basis.

The additional litter removal is to be used on an “as needed” basis. This separate bid item is over and above the routine litter removal required during regular mowing operations. A written delivery order will be issued to the Contractor each time there is such a need.

2. **EQUIPMENT** - Ensure all equipment used in the performance of the contract on County property is in good safe working order and properly maintained in order to protect the operator and the public. All equipment used by the Contractor is subject to inspection by the County’s Representative. Required Minimum Equipment – John Young Area Section II

Type	Quantity	Comments
15-foot Batwing	1	Open right-of-way mowing
6 or 8-foot Bush hog	1	Brush control/mowing
50 or 60” cut ZTR Mowers	2	Mowing urban right-of-way
Weed eaters	4	Weed control
Edger	2	Edging
Blowers	2	Site Cleanup
Herbicide Sprayers	1	Spraying herbicides

Boom/Slope Mowers	2	Mowing slopes/Ditches/Wet areas

Because every mowing area presents unique characteristics, potential Contractor shall take the time to inspect and analyze specific needs. Some areas require ditch and/or slope mowing, some small machine mowing, some large machine mowing, and some others require a combination of equipment in order to provide the required services. The mowing equipment used by the Contractor shall be maintained to produce a clean, sharp cut and uniform distribution of clippings at all times. To protect the integrity of the turf, the mowers will be constructed such that the height of the turf cut will be four (4) inches. The Contractor is required to use amber flashing lights on all mowing equipment and their employees shall be provided with the required Personnel Protective Equipment by the Contractor as required by O.S.H.A. and the County.

3. **COMPLETION OF WORK** – The Contractor shall complete the work ordered within each designated cycle and shall notify in writing of areas completed on a daily basis to the County’s Representative for inspection and approval of work quality being accomplished.

The County's Representative will make a final inspection and will notify the Contractor in writing of any deficiencies found in reported areas. In the event of unsatisfactory work, the Contractor will repeat the work without additional compensation, within two (2) work days unless otherwise authorized by the County's Representative. If a second re-inspection is required, the County will assess an eighty (80.00) dollar fee to the Contractor. The eighty (80.00) dollar fee will be assessed for every re-inspection after the first re-inspection. The fee is assessed to offset the additional County labor costs and vehicle usage required for unnecessary inspections and the fee will be deducted from the final invoice for that delivery order.

4. **MOWING – Mowing, edging (of sidewalks, paved approaches and curbs), litter removal, herbicide treatment, grass clipping removal, and brush control are included under one bid item.**

Regular mowing under this contract is generally limited to mowing areas of shoulders, front and back slopes of ditches less than or equal to three-to-one (3:1) slope, roadside retention areas, dry roadside ditch bottoms, median islands and various width utility strips and similar areas. Slope mowing, which is also a contract requirement, is generally limited to slopes greater or steeper than three-to-one (3:1) and are relatively inaccessible to the use of conventional mowing equipment (e.g., steep slopes, retention area banks and shores, bridge/overpass banks, canal banks, wet roadside ditches, etc). These types of areas will normally require equipment specifically designed for this type of work. When slope mowing is performed, it will incorporate the use of string trimmers to protect the integrity of the slope and prevent damage to the turf.

Sign posts, mailboxes, guardrails, trees, roadside outfall structures, fences, divider walls, shrubs, plants, light poles, utility flags or other such obstacles to mowing will be hand mowed or trimmed around as necessary to present a groomed appearance. **Top of vegetation on wet bottom ditches areas must be cut-off to the water's level.** Particular attention will be paid to planted areas. Any damage that occurs to plants, trees, shrubs, mulched beds, tree rings, sprinkler heads, etc., will be repaired or restored, at the Contractor's expense, before the cycle is completed. Mowing will also include grass clipping removal and litter removal, edging, and herbicide treatment. These costs will be included in the unit price bid for right-of-way mowing.

4.1 **Quality** – All cutting by the Contractor shall be performed in such a manner to produce a stand of mowed grass or vegetation cut uniformly with no streaks or scalping. In the event the Contractor damages the turf, curbs, or pavement, the Contractor will be responsible for restoring it to its original condition and/or replacement thereof, prior to the end of the cycle. This also includes sign structures, mailboxes, appurtenances, etc.

All appurtenances will be hand-mowed or trimmed around by the Contractor as necessary to present a well-groomed appearance. Appurtenances will include but not be limited to, sign posts and bases, delineator posts, fences, guardrail or barrier walls, end walls, pipes, drainage structures, poles, roadside retention area control structures, guys, landscape areas, etc.

4.1.1 **Quantity and Frequency of Mowing** – The County's Representative will determine when to begin each mowing cycle. The number and timing of the cycles will depend upon the growth conditions of the grass during the

season. A maximum of sixteen (16) mowing cycles will be ordered each year. The Contractor will be compensated at the unit price per acre times the acreage completed in each mowing cycle.

- 4.1.2 **Limitations of Operation** – When mowing within ten (10) feet of traveled roadway, all equipment will be operated in the direction of the flow of traffic by the Contractor. This provision does not apply when flaggers and warning signs in accordance with the Manual on Uniform Traffic Control Devices protect the specific work site.

When boom-type slope mowers are operated on the shoulder by the Contractor, a flagger will be stationed by the Contractor to warn other traffic and assist the operations. Warning signs will be placed by the Contractor in accordance with the most current edition of the Florida Department of Transportation's "Roadway and Traffic Design Standards" for Design, Construction, Maintained Systems and the "Manual on Uniform Traffic Control Devices for Streets and Highways." When mowers are crossing the traveled roadway or bridges, flaggers will be provided.

When necessary for mowing machines to cross bridges with full width shoulders on the right, the crossing should be made on the shoulder. All bridges should be crossed with extreme care and operations by the Contractor planned to reduce such crossings to a minimum.

When necessary for mowing machines to cross the traveled roadway, a location will be selected by the Contractor that provides an unobstructed sight distance of five hundred (500) feet. The operator will stop before crossing the roadway and permit closely approaching vehicles to pass before crossing. Operations by the Contractor will be planned to minimize crossings. Equipment left on the right-of-way or County property by the Contractor after designated work hours will be placed outside the clear and recovery area and will be the sole responsibility of the Contractor. If equipment is left on the right-of-way by the Contractor, it will be marked with a barricade etc. by the Contractor and with approved steady burning amber lights.

All service and supply operations will be conducted outside the clear and recovery area. No supply vehicles will enter the median for any purpose. No service vehicle will enter the median unless necessary to repair or remove inoperable equipment.

- 4.2 **Litter Removal** – During each mowing cycle, all litter and debris are to be removed prior to and upon completion of the cutting by the Contractor. Litter and debris removal includes the pickup, removal, and disposal from the right-of-way and County property of any obstacle such as wood, signs, tires, cans, etc., which cannot be traversed by the mowing equipment. It will also be the Contractor's responsibility to remove any item such as bags of trash, newspapers, magazines, food containers, boxes, sheets of paper, etc., which will be torn, ripped, scattered or further subdivided by the mowers, which will result in an objectionable appearance. **The cost of litter removal will be included in the unit price bid for mowing.**

4.3 **Clipping Removal** – During each cycle grass clippings that are not uniformly distributed and detract from the appearance of the mowing operation, will be removed from the job site by the Contractor, upon completion of the mowing operation to allow for a neat and clean appearance of the area. The Contractor shall remove and dispose of all grass clippings from the pavement, fence lines, sidewalks, curbs and curb inlets located within the limits of the maintained roads. **The cost of grass clipping removal will be included in the unit price bid for mowing.** The grass clipping removal shall be performed in conjunction with the mowing cycle by the Contractor. It is the responsibility of the Contractor to maintain the inlet openings free from the debris generated during their right-of-way mowing operation. Grass clippings shall not be blown into drains or storm drain inlets by the Contractor. Failure to adhere to this will result in the Contractor, at their own expense within two (2) working days, jetting out these pipes and drains or reimbursing the County for the clean-up effort carried out by County personnel.

4.4 **Brush Control** – During each cycle the Contractor is responsible for cutting and removing brush and plant growth up to two (2) inches in diameter and up to seven (7) feet in height along right-of-way, undeveloped lots or properties and along fence lines and walls so it does not encroach onto the County’s right-of-way. Areas behind power poles shall be mowed at least one mower pass to the right-of-way line. This work will be performed in conjunction with the mowing cycle. **The cost of brush control will be included in the unit price bid for mowing.**

Tree trimming/elevating is not part of this contract. Low hanging limbs over the right of way will be addressed by the County maintenance Unit.

4.5 **Edging** - Edging encompasses the removal of all weeds, sand, vegetation, debris and plant material by the Contractor from all edges including but not limited to the following structures: sidewalks, paved approaches, and curbs, to maintain these areas in an attractive and manicured condition. **Edging encompasses the removal of growth mechanically and manually.**

String trimmers **will not** be used in edging. Edging also includes the removal of all sand and debris from the areas designated to be edged.

Upon completion of edging by the Contractor, no growth, sand or debris will touch any of the structures designated to be edged. The Contractor will remove all sand and debris from the areas designated for edging. **The cost of this removal and disposal will be included in the unit price bid for mowing.**

- 4.5.3 **Quality** - Plant growth, sand and debris will be removed from all specified areas to provide a neatly groomed and manicured appearance in accordance with the specifications. If at any time, performed work is deemed unsatisfactory by the County's Representative, the services will be re-performed at no additional cost to the County.

This edging encompasses the removal of all weeds, sand, vegetation, debris and plant material by the Contractor from the asphalt paved roadways edges. Edging encompasses the removal of growth mechanically and manually, and also includes the removal of all sand and debris from the areas requested to be edged. Areas specified for edging of asphalt paved roadway edges **will not** be treated with herbicide.
- 4.6.1. **Quantity and Frequency of Edging of Asphalt Paved Roadways** - The edging of asphalt paved roadway edges that do not have curb shall be performed on an as-needed basis as ordered by the County's Representative for specific roadways. A map or list of the roadways will be provided and a written delivery order will be issued to the Contractor each time there is a need for asphalt paved roadway edging. The cost of the edging of asphalt paved roadway edges will be included in the “Edging of asphalt paved roadways (feet)” bid item. For bidding purposes only, six (6) cycles have been estimated for edging of specified asphalt paved roadways annually.
- 4.6.2. **Method of Operations** – The edging of asphalt paved roadway edges that do not have curb shall create a distinct void; approximately one-half (1/2) inch horizontally between the asphalt edge and the turf. String trimmers **shall not** be used in edging. Edging also includes the removal of all sand and debris from the areas designated to be edged. Upon completion of edging by the Contractor, no growth, sand or debris will touch the asphalt roadway designated to be edged. The Contractor shall remove all sand and debris from the areas designated for asphalt paved roadway edging. **The cost of this removal and disposal will be included in the unit price bid for “Edging of asphalt paved roadways (feet)”.**
- 4.6.3. **Quality** - Plant growth, sand and debris will be removed from all specified areas to provide a neatly groomed and manicured appearance in accordance with the specifications. If at any time, performed work is deemed unsatisfactory by the County's Representative, the services will be re-performed at no additional cost to the County.
- 4.7. **Herbicide Treatment** - Herbicide treatment encompasses the treatment of all grass, weeds, vegetation and plant material growing on, along and around concrete medians, curb inlets, inlet openings, gutters, ramps, guardrails, bridge embankments and bridge supports with an approved herbicide to maintain these areas in an attractive and manicured condition. The herbicide treatment will also include the treatment of all expansion joints and cracks located on sidewalks, curbs, concrete medians and paved approaches. **No herbicide treatment by the Contractor shall be allowed along fence lines and asphalt paved roadway edges.**

All herbicide used by the Contractor shall contain the active ingredient glyphosate (e.g. as in Roundup), applied in accordance with the manufacturer's label directions. The herbicide mixture shall contain a colored spray indicator (blue preferable) to mark the areas treated. **The color indicator will be used to verify application of herbicide treatment.**

A valid State of Florida Pest Control Operator's license with Pesticide Application qualified in right-of-way category shall be issued in the name of the Bidders Company or the name of company employee.

NOTE: Areas designated to be edged shall not be treated with herbicide by the Contractor.

4.7.1 **Quantity and Frequency of Herbicide Treatment** – Herbicide treatment by the Contractor shall be performed in conjunction with the mowing cycle. **The cost of herbicide treatment will be included in the unit price bid for mowing.**

4.7.2 **Method of Operations** - Upon completion of herbicide treatment by the Contractor, no growth will remain on any of the areas designated to be treated. The spray pattern for herbicide treatment will be six (6) inches, inside the right of way line.

Approximately ten days after the application of herbicides, all vegetation will be removed and disposed of by the Contractor. All dead vegetation will be removed from all areas sprayed, including sidewalk expansion joints, curbs, gutters, concrete medians and inlet openings, etc. **The cost of the removal and disposal of all plant growth will be included in the unit price bid for mowing.**

4.7.3 **Limitation of Operations** - The Contractor shall abide by all rules, laws, ordinances and statutes of the Federal Government as well as that of the State and County having jurisdiction pertaining to the handling, storage and application of herbicides. The Contractor at their expense shall replace plants, grass and trees damaged by the improper use of herbicides. Replacement will be of the same size and type of those damaged.

**FREQUENTLY ASKED QUESTIONS (FAQ)
ABOUT THE
RELATIONSHIP DISCLOSURE FORM**
Updated 6-28-11

WHAT IS THE RELATIONSHIP DISCLOSURE FORM?

The Relationship Disclosure Form (form OC CE 2D and form OC CE 2P) is a form created pursuant to the County's Local Code of Ethics, codified at Article XIII of Chapter 2 of the Orange County Code, to ensure that all development-related items and procurement items presented to or filed with the County include information as to the relationship, if any, between the applicant and the County Mayor or any member of the Board of County Commissioners (BCC). The form will be a part of the backup information for the applicant's item.

WHY ARE THERE TWO RELATIONSHIP DISCLOSURE FORMS?

Form OC CE 2D is used only for development-related items, and form OC CE 2P is used only for procurement-related items. The applicant needs to complete and file the form that is applicable to his/her case.

WHO NEEDS TO FILE THE RELATIONSHIP DISCLOSURE FORM?

Form OC CE 2D should be completed and filed by the owner of record, contract purchaser, or authorized agent. Form OC CE 2P should be completed and filed by the bidder, offeror, quoter, or respondent, and, if applicable, their authorized agent. In all cases, the person completing the form must sign the form and warrant that the information provided on the form is true and correct.

WHAT INFORMATION NEEDS TO BE DISCLOSED ON THE RELATIONSHIP DISCLOSURE FORM?

The relationship disclosure form needs to disclose pertinent background information about the applicant and the relationship, if any, between, on the one hand, the applicant and, if applicable, any person involved with the item, and on the other hand, the Mayor or any member of the BCC.

In particular, the applicant needs to disclose whether any of the following relationships exist: (1) the applicant is a business associate of the Mayor or any member of the BCC; (2) any person involved with the approval of the item has a beneficial interest in the outcome of the matter *and* is a business associate of the Mayor or any member of the BCC; (3) the applicant is a relative of the Mayor or any member of the BCC; or (4) the Mayor or any member of the BCC is an employee of the applicant. (See Section 2-454, Orange County Code.)

HOW ARE THE KEY RELEVANT TERMS DEFINED?

Applicant means, for purposes of a development-related project, the owner, and, if applicable, the contract purchaser or owner's authorized agent. Applicant means, for purposes of a procurement item, the bidder, offeror, quoter, respondent, and, if applicable, the authorized agent of the bidder, offeror, quoter, or respondent.

Business associate means any person or entity engaged in or carrying on a business enterprise with a public officer, public employee, or candidate as a partner, joint venture, corporate shareholder where the shares of such corporation are not listed on any national or regional stock exchange, or co-owner of property. In addition, the term includes any person or entity engaged in or carrying on a business enterprise, or otherwise engaging in common investment, with a public officer, public employee, or candidate as a partner, member, shareholder, owner, co-owner, joint venture partner, or other investor, whether directly or indirectly, whether

through a Business Entity or through interlocking Parent Entities, Subsidiary Entities, or other business or investment scheme, structure, or venture of any nature. (See Section 112.312(4), Florida Statutes, and Section 2-452(b), Orange County Code.)

Employee means any person who receives remuneration from an employer for the performance of any work or service while engaged in any employment under any appointment or contract for hire or apprenticeship, express or implied, oral or written, whether lawfully or unlawfully employed, and includes, but is not limited to, aliens and minors. (See Section 440.02(15), Florida Statutes.)

Relative means an individual who is related to a public officer or employee as father, mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half-brother, half-sister, grandparent, great grandparent, grandchild, great grandchild, step grandparent, step great grandparent, step grandchild, step great grandchild, person who is engaged to be married to the public officer or employee or who otherwise holds himself or herself out as or is generally known as the person whom the public officer or employee intends to marry or with whom the public officer or employee intends to form a household, or any other natural person having the same legal residence as the public officer or employee. (See Section 112.312(21), Florida Statutes.)

DOES THE RELATIONSHIP DISCLOSURE FORM NEED TO BE UPDATED IF INFORMATION CHANGES?

Yes. It remains a continuing obligation of the applicant to update this form whenever any of the information provided on the initial form changes.

WHERE DO THE RELATIONSHIP DISCLOSURE FORM AND ANY SUBSEQUENT UPDATES NEED TO BE FILED?

For a development-related item, the Relationship Disclosure Form and any update need to be filed with the County Department or County Division where the applicant filed the application. For a procurement item, the Relationship Disclosure Form and any update need to be filed with the Procurement Division.

WHEN DO THE RELATIONSHIP DISCLOSURE FORM AND ANY UPDATES NEED TO BE FILED?

In most cases, the initial form needs to be filed when the applicant files the initial development-related project application or initial procurement-related forms. However, with respect to a procurement item, a response to a bid will not be deemed unresponsive if this form is not included in the initial packet submitted to the Procurement Division.

If changes are made after the initial filing, the final, cumulative Relationship Disclosure Form needs to be filed with the appropriate County Department or County Division processing the application not less than seven (7) days prior to the scheduled BCC agenda date so that it may be incorporated into the BCC agenda packet. When the matter is a discussion agenda item or is the subject of a public hearing, and an update has not been made at least 7 days prior to BCC meeting date or is not included in the BCC agenda packet, the applicant is obligated to verbally present such update to the BCC when the agenda item is heard or the public hearing is held. When the matter is a consent agenda item and an update has not been made at least 7 days prior to the BCC meeting or the update is not included in the BCC agenda packet, the item will be pulled from the consent agenda to be considered at a future meeting.

WHO WILL REVIEW THE INFORMATION DISCLOSED ON THE RELATIONSHIP DISCLOSURE FORM AND ANY UPDATES?

The information disclosed on this form and any updates will be a public record as defined by Chapter 119, Florida Statutes, and may therefore be inspected by any interested person. Also, the information will be made available to the Mayor and the BCC members. This form and any updates will accompany the information for the applicant's project or item.

However, for development-related items, if an applicant discloses the existence of one or more of the relationships described above and the matter would normally receive final consideration by the Concurrency Review Committee or the Development Review Committee, the matter will be directed to the BCC for final consideration and action following committee review.

**FREQUENTLY ASKED QUESTIONS (FAQ)
ABOUT THE
SPECIFIC PROJECT EXPENDITURE REPORT**
Updated 3-1-11

WHAT IS A SPECIFIC PROJECT EXPENDITURE REPORT (SPR)?

A Specific Project Expenditure Report (SPR) is a report required under Section 2-354(b) of the Orange County Lobbying Ordinance, codified at Article X of Chapter 2 of the Orange County Code, reflecting all lobbying expenditures incurred by a principal and their authorized agent(s) and the principal's lobbyist(s), contractor(s), subcontractor(s), and Contractor(s), if applicable, for certain projects or issues that will ultimately be decided by the Board of County Commissioners (BCC).

Matters specifically exempt from the SPR requirement are ministerial items, resolutions, agreements in settlement of litigation matters in which the County is a party, ordinances initiated by County staff, and some procurement items, as more fully described in 2.20 of the Administrative Regulations.

Professional fees paid by the principal to his/her lobbyist for the purpose of lobbying need not be disclosed on this form. (See Section 2-354(b), Orange County Code.)

WHO NEEDS TO FILE THE SPR?

The principal or his/her authorized agent needs to complete and sign the SPR and warrant that the information provided on the SPR is true and correct.

A principal that is a governmental entity does not need to file an SPR.

HOW ARE THE KEY RELEVANT TERMS DEFINED?

Expenditure means "a payment, distribution, loan, advance, reimbursement, deposit, or anything of value made by a lobbyist or principal for the purpose of lobbying. This may include public relations expenditures (including but not limited to petitions, flyers, purchase of media time, cost of print and distribution of publications) but does not include contributions or expenditures reported pursuant to Chapter 106, Florida Statutes, or federal election law, campaign-related personal services provided without compensation by individuals volunteering their time, any other contribution or expenditure made by or to a political party, or any other contribution or expenditure made by an organization that is exempt from taxation under 26 U.S.C. s. 527 or s. 501(c)(4)." (See Section 112.3215, Florida Statutes.) Professional fees paid by the principal to his/her lobbyist for the purpose of lobbying are not deemed to be "expenditures." (See Section 2-354, Orange County Code.)

Lobbying means seeking "to encourage the approval, disapproval, adoption, repeal, rescission, passage, defeat or modification of any ordinance, resolution, agreement, development permit, other type of permit, franchise, vendor, Contractor, contractor, recommendation, decision or other foreseeable action of the [BCC]," and "include[s] all communications, regardless of whether initiated by the lobbyist or by the person being lobbied, and regardless of whether oral, written or electronic." (See Section 2-351, Orange County Code.) Furthermore, *lobbying* means communicating "directly with the County Mayor, with any other member of the [BCC], or with any member of a procurement committee." (See Section 2-351, Orange County Code.) *Lobbying* also

means communicating “indirectly with the County Mayor or any other member of the [BCC]” by communicating with any staff member of the Mayor or any member of the BCC, the county administrator, any deputy or assistant county administrator, the county attorney, any county department director, or any county division manager. (See Section 2-351, Orange County Code.) *Lobbying* does not include the act of appearing before a Sunshine Committee, such as the Development Review Committee or the Roadway Agreement Committee other than the BCC.

Principal means “the person, partnership, joint venture, trust, association, corporation, governmental entity or other entity which has contracted for, employed, retained, or otherwise engaged the services of a lobbyist.” *Principal* may also include a person, partnership, joint venture, trust, association, corporation, limited liability corporation, or other entity where it or its employees do not qualify as a lobbyist under the definition set forth in Section 2-351 of the Orange County Code but do perform lobbying activities on behalf of a business in which it has a personal interest.

DOES THE SPR NEED TO BE UPDATED IF INFORMATION CHANGES?

Yes. It remains a continuing obligation of the principal or his/her authorized agent to update the SPR whenever any of the information provided on the initial form changes.

WHERE DO THE SPR AND ANY UPDATES NEED TO BE FILED?

The SPR needs to be filed with the County Department or County Division processing the application or matter. If and when an additional expenditure is incurred subsequent to the initial filing of the SPR, an amended SPR needs to be filed with the County Department or County Division where the original application, including the initial SPR, was filed.

WHEN DO THE SPR AND ANY UPDATES NEED TO BE FILED?

In most cases, the initial SPR needs to be filed with the other application forms. The SPR and any update must be filed with the appropriate County Department or County Division not less than seven (7) days prior to the BCC hearing date so that they may be incorporated into the BCC agenda packet. (See Section 2-354(b), Orange County Code.) When the matter is a discussion agenda item or is the subject of a public hearing, and any additional expenditure occurs less than 7 days prior to BCC meeting date or updated information is not included in the BCC agenda packet, the principal or his/her authorized agent is obligated to verbally present the updated information to the BCC when the agenda item is heard or the public hearing is held. When the matter is a consent agenda item and an update has not been made at least 7 days prior to the BCC meeting or the update is not included in the BCC agenda packet, the item will be pulled from the consent agenda to be considered at a future meeting.

WHO WILL BE MADE AWARE OF THE INFORMATION DISCLOSED ON THE SPR AND ANY UPDATES?

The information disclosed on the SPR and any updates will be a public record as defined by Chapter 119, Florida Statutes, and therefore may be inspected by any interested person. Also, the information will be made available to the Mayor and the BCC members. This information will accompany the other information for the principal’s project or item.

CONCLUSION:

We hope you find this FAQ useful to your understanding of the SPR. Please be informed that in the event of a conflict or inconsistency between this FAQ and the requirements of the applicable ordinance governing specific project expenditure reports, the ordinance controls.

Also, please be informed that the County Attorney's Office is not permitted to render legal advice to a principal, his/her authorized agent, or any other outside party. Accordingly, if after reading this FAQ the principal, his/her authorized agent or an outside party has any questions, he/she is encouraged to contact his/her own legal counsel.
